

# drum-tec TD-30

# Live Sound Edition

*Brilliant drum sounds for your TD-30 sound module.*

*More than 30 additional kits, specifically built for the stage.*

*Compiled and edited by your drum-tec e-drum pros.*

**Sound Examples,  
press Video Button**

Dear customer,

we would like to thank you for purchasing a TD-30 sound module from drum-tec. In addition to the stock kits already loaded we designed even more high-end kits just for you, which you can download from the added flash drive onto your sound module.

## **Your e-drum onstage**

Many drummers use their TD-30 sound module onstage and we get frequent requests regarding stage sounds. That motivated us to design stage-ready customs kits for you. The USB device we added to your order provides you with fitting kits for every genre.

You will find a complete summary of all the kits included on the flash drive, as well as a detailed report on all the custom allocations in the added PDF document 'drum-tec TD-30 Stick Inhalt'.

We would like to offer support by phone at
